3364 Sandlin Road
The Dalles, Oregon 97058

Dear Mr. Storkson,

As requested during our telephone conversation today regarding the right-of-way easement that serves Lorne Richmond's pump for which the service was extended from the powerline on your property in July, 1987, we agree to relocate the powerline serving the pump in the event that you or someone you may sell your property to in the future wishes to build a house under the powerline as long as a right of way easement is granted for the relocation.

If we can be of further service to you, please contact us.

Sincerely,

A. M. Thomsen, Manager
Wasco Electric Cooperative, Inc.
